

# Find a Quote in the MathWorks Store

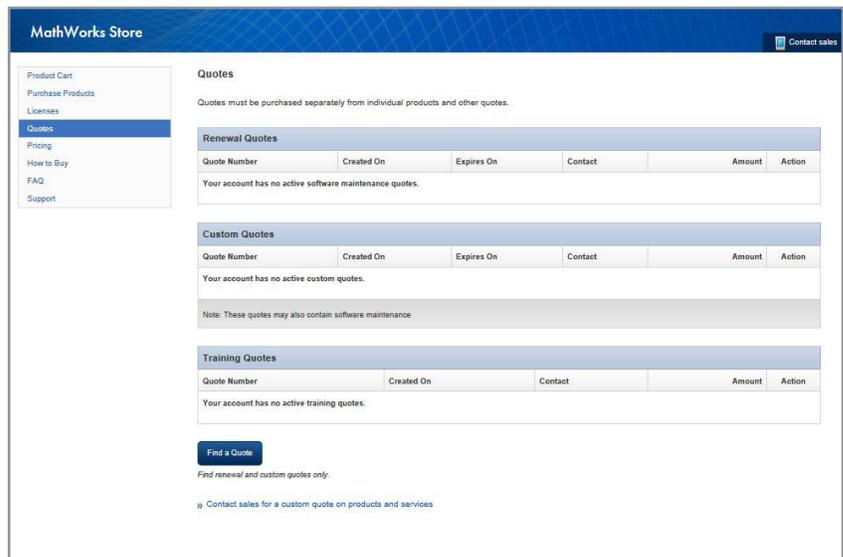

The “Find a Quote” feature enables purchasers in an organization to look up and view quotes, and complete purchases online. The purchaser does not need to be associated with the original quote (quote contact) or the license (such as license administrator or maintenance contact). “Find a Quote” can help reduce the overall purchase transaction time for a more efficient buying process.

## To use “Find a Quote” purchasers need:

- A *MathWorks Account*
- A copy of the PDF quote, which will provide the three pieces of information required to look up the quote
- To belong to the same organization as the quote contact (Resellers are not allowed to use this functionality.)

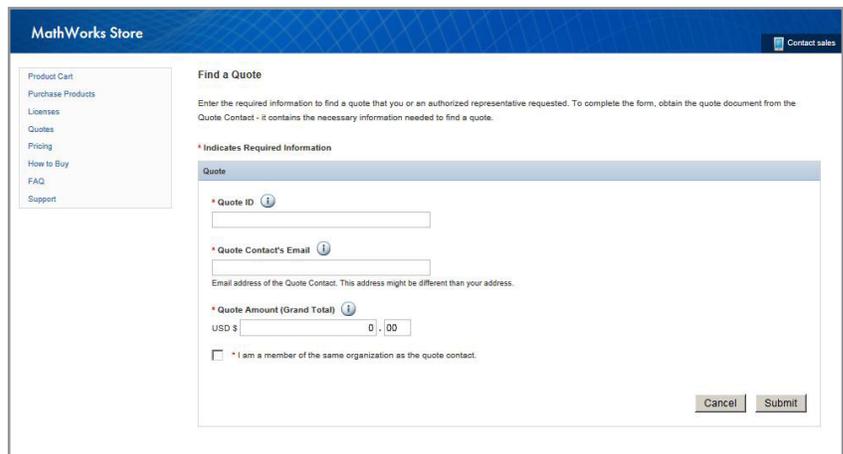

## How to find a quote

1. *Log into your MathWorks Account*
2. Click “My Account”
3. Click “View Quotes”

The Quotes view in MathWorks Store.

4. Click the “Find a Quote” button
5. Enter the required information. You can get the quote ID, the quote contact’s email, and the quote amount (grand total) from the PDF quote.

Find a Quote view with data available from original PDF quote.

6. Place a checkmark in the box to indicate “I am a member of the same organization as the quote contact.”
7. Click “Submit”

View Quote - 4045049

License #New 1 - Euclid Jorda IN DWL COMM   Term: P   Expires: Mar 1, 2015
